March 2026

Experience

Limbic Capital | London, UK

Apr 2026 - Present

Private Equity Intern

- Expanded active deal pipeline with 20 meetings and 3 signed NDAs in the first month by engineering an automated sourcing and outreach system for campaigns including M&A Advisory, Manufacturing, Real Estate, and HVAC.
- Mapped and enriched 500+ companies and 370+ contacts across RNG/AD project developers (global) and lower mid-market M&A advisors (Europe) targeting industrial and defense manufacturing, maintaining data integrity on Twenty CRM.
- Drove deal flow in European manufacturing (€5M–€100M revenue), advancing targets from initial screen through founder engagement.
- Developed and maintained a proprietary database of 7000+ USA-based companies focused on M&A activity, informing outreach and transaction sourcing initiatives.
- Increased conversion efficiency for an alpha-stage portfolio SaaS company by establishing funnel benchmarks and deploying a self-correcting analytics layer that autonomously updates copy when metrics breach floor thresholds.
- Led due diligence for a Slovakia-based Real Estate property.

Eaglewings Ventures | Mumbai, India

Jun 2025 - Aug 2025

Investment Analyst Intern

- Spearheaded Thesis Development on Nuclear Energy in India and Immersion Cooling for Data Centers applying econometric and financial analyses to expand the pipeline with 3+ qualified companies.
- Produced 2+ industry research reports evaluating regulatory risks, unit economics, investment potential and scalability.
- Supported deal evaluations on prospective deals through 15+ founder calls across DeepTech and SaaS businesses.
- Conducted pre-Series A financial analysis, cap table review and burn analysis to support capital raise evaluations.

Caprae Capital Partners | Glendale, CA

Jan 2025 - May 2025

Private Equity Intern

- Conducted company and industry research, producing 3+ in-depth reports in Legal Tech, ITAD and Accounting sectors.
- Built 2 valuation models (LBO), and prepared investment memos and presentation materials supporting acquisition decisions.
- Successfully cold-called Founders for acquisition, organising 2 meetings for the client.

HP Tech Ventures | Remote

Nov 2024 - Jan 2025

Deal Sourcing & Startup Analysis Extern

- Identified and sourced 5 high-potential startups aligned with investment theses, selecting one for partner-level due diligence.

The Dallas Entrepreneur Center Network | Dallas, TX

May 2024 - Aug 2024

Project Management Intern

- Coordinated with a high-performing team of 5 to establish and adhere to project timelines, resulting in on-time delivery of 95% of assigned projects while optimizing organizational workflows for improved efficiency.
- Drove a 24.8% improvement in mentor-mentee pairings by designing a data-driven dashboard - streamlining the process by analyzing and visualizing key metrics, facilitating better match-making and communication.

Udayaa | Remote

May 2023 - Feb 2024

Lead Software Engineer

- Directed a cross-functional team of 5 developers and designers to develop a full-stack web application for a non-profit supporting student campaigns and fundraisers, using React, Django, PostgreSQL, Docker, and AWS.

Projects, Skills & Interests

Automated Deal Evaluation Pipeline | Python, Claude API, FastAPI, Uvicorn, React, Vite

March 2026

- Built a 3-stage multi-agent LLM pipeline automating private equity deal triage ingesting deal documents, extracting investment metrics, generating structured IC memos, reducing analyst write-up time days to minutes.
- Increases time efficiency by 60% in document metric extraction, excel re-population and IC memo writing.
- Integrated a research agent and LBO Modeling agent that exports to the IC Memo further reducing time by 30%.

HubAssist | Python, Django, React, PostgreSQL, Docker, AWS

November 2022.

- Devised a greedy algorithm - analyzed over 7,000 courses to determine optimal course combinations.
- Created an innovative full-stack application by utilizing React, Django, PostgreSQL, Docker and AWS amassing 1,500+ users

Financial & Software: MS Excel, Python, Stata, Financial Statement Analysis, Bloomberg, Financial Modeling, Equity Research, Regression Analysis, Forecasting, Risk Management, SAS, Java, NumPy, Matplotlib, SQL, Salesforce, AWS, PostgreSQL, Tableau, Power BI ; **Interests & Languages:** Table Tennis, Drums, Songwriting, Football, Trekking/Hiking, English, Hindi, Marwari
